## **ABOUT THE DIRECTORY:**

The main purpose of this Directory is to provide information on available services given by the **Public and Private Universities/Colleges** in all regions of our country to students with disabilities wanting to pursue tertiary level of education. The information provided will not only benefit students with disabilities but also parents, service providers and the general public on available services run by these educational institutions.

The 109 Universities/Colleges who responded to our survey willingly contributed the information, which could help in the Country's thrust to push **Incheon Strategy's Goal 3** which reads: "enhance access to the physical environment, public transport, knowledge, and information and communication for persons with disabilities" to fulfill their rights in an exclusive society.

Further, this Directory is a sequel of the "*Getting Options: A Handbook on Getting Education, Training & Work Options for Persons with Disabilities*" in the National Capital Region (NCR) and this time we want to cover more schools in other regions of the country. The Getting Options: Handbook was inspired by the **Convention on the Rights of Persons with Disabilities (CRPD)** Article 25 - Education, Section 5 requiring State Parties to ensure that persons with disabilities are able to access general tertiary education and further enshrined in Republic Act 7277 otherwise known as Magna Carta for Person with Disabilities.
