### **ABOUT THIS DIRECTORY:**

Since the “Right to Education” is one of the basic rights of all children, children with disabilities should have equal access to all forms of educational opportunities as called for in **the UN Convention on the Rights of Persons with Disabilities** (UN-CRPD). This is the main reason why we developed this **Directory of Disability Inclusive Schools**, for students with disabilities to enjoy their right to to education. This can provide them with information and services that are readily available in their communities.

The Directory will also be useful to parents helping their children to look for nearby inclusive schools as well as to individuals or organizations needing data locally and abroad. The user can easily find for schools suitable for them since schools were categorized under City or Municipality. It will also serve as a Marketing Tool to spread each school's available services to students with disabilities.

In this view, the Council would like to thank the schools who responded to our request of updating their school's information for the benefit of this publications's users. Also, for the continued support of the Council's Officer-In-Charge Ms. Carmen Reyes-Zubiaga .
